

UltraPulley 12-14 PH

UPPER POSITON

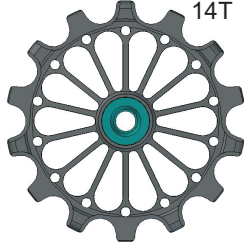

12T

Socket for
upper cage

LOWER POSITON

14T

UltraPuleys features twin bearings unmatched shifting precision.

Warning: Maximum tightening torque: 2Nm
do not over-tight pulley bolts to allow best rolling
smoothness and avoid damaging the bearings.

Warning: Do not exchange alloy bearing inserts between
the two pulleys. Each unit is individually tolerance matched
